

HUSAN Suyunov

Full-Stack Web
Developer

About Me

I am an experienced Full-Stack web developer. I have advanced knowledge and skills in building web applications and artificial intelligence projects using Python, I can build both Backend and Frontend parts of LMS and CRM systems using Python. I have experience working with backend and frontend technologies, and I also have skills in developing Telegram bots. Learning new technologies and finding innovative solutions to complex problems are my top priorities.

Skills:

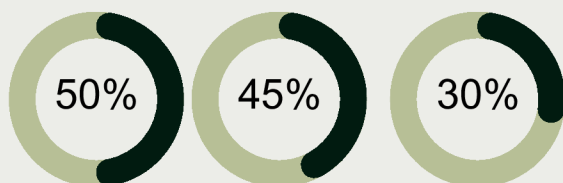

- ✓ Programming languages: Python, HTML+CSS, Java, C++
- ✓ Backend: Django, FastAPI, Flask
- ✓ Frontend: HTML, CSS, JavaScript, React
- ✓ Database: PostgreSQL, MySQL, SQLite
- ✓ Artificial intelligence: Machine Learning, Deep Learning, TensorFlow, PyTorch
- ✓ Telegram bots: aiogram, Telethon, Pyrogram
- ✓ Version control: Git, GitHub
- ✓ Cloud services: AWS, Firebase
- ✓ DevOps and Automation: Docker, CI/CD
- ✓ Testing and quality control: Unit testing, Integration testing, PyTest, Selenium
